Buy in the Beautiful Gray Tract

One of the best subdivisions in San Mateo County. No adobe; the finest of soil—loam and gravel; beautiful oak trees, and situated on the Woodside road. This road is soon to be made into a beautiful boulevard. NOW is the time to buy. Only a few blocks from the new electric line. Don't let all outsiders come here and buy up the best. These lots are all 50x109 feet; no 25-feet frontage here. I want you to call at the office and I will show you what these lots are, and I would like to see our own people get in on the ground floor—not all strangers. About forty of these lots have been placed on the market for $250 each; 10 per cent cash, remaining payments to suit purchaser.

In Need of Money

Downey Harvey, president of the Ocean Shore railroad, has been in Santa Cruz recently in the interest of the new road. The Ocean Shore is in need of ready capital to complete its line between that city and San Francisco by next summer. Harvey said it was impossible for the Ocean Shore to sell its bonds in New York or San Francisco at the present time, and appealed to the people of Santa Cruz to buy them. Citizens there are much interested in the completion and success of the new road which will offer strong competition to the Southern Pacific company.

A meeting of those most prominent was held and $18,000 in bonds subscribed. It is proposed to sell $300,000 worth of bonds. Some of the most prominent men of the coast side in this county should get together and see what they can do for the road that will run by their ors and enhance the value of their property.

CALL'S STORY DECLARED FALSE

Stone Work Was Not Included in Contract

SO UNDERSTOOD BY SOLONS

When Bid of the J. J. O'Brien Co. Was Accepted to Build New Courthouse

Citizens of San Mateo county have learned that their new brick and stone courthouse, which they thought would be erected at a total cost of $125,000, will doubtless cost much more. It has been discovered that the contract entered into with the J. J. O'Brien construction company of San Francisco did not call for the cutting and setting of the stone work by the contractors, but, through an insert in the specifications between the eleventh and twelfth pages the contract reads: "The stone work is not to be included in the contract, but the contractor shall allow the owner to cut and set all stone at such time as the building may be ready for the same."

The contract provides that the contractors shall receive from the city all material recovered whole from the wreck of the courthouse destroyed by the earthquake. The old building was originally to have cost $132,845, but the contract was amended by the addition of $57,900 to the original contract price. —S. F. Call.

The above statement is not correct in every particular. It was distinctly understood at the time the contract was awarded that the stone work was not included in the agreement. Some time before calling for bids the Supervisors visited the old courthouse with an expert stone mason and ascertained the amount of old stone there that was saved from the wreck of the building. It was learned that the stone was in excellent condition and with a little trimming could be used. It will be remembered that the stone cost between $35,000 and $40,000. So the Supervisors concluded that they would let a separate contract for the work or put the material in place themselves by day work. There is sufficient stone to build the new courthouse.

J. J. O'Brien Co. has the contract for $160,000. It will be remembered that the old courthouse cost $235,000. There is no joker in the contract whatever. It was simply a plain business proposition not to include the stone in the O'Brien contract.

To Locate at North Fair Oaks

The door veneering works of San Francisco are to establish a plant at North Fair Oaks. The owners of the concern this week bought a whole block in the tract on the line of the Dumbarton road. Three hundred men are now employed at the factory in San Francisco. The works will be enlarged when established here and many more men will be employed. This is only one of the many manufacturing concerns that are to locate here.

Henry Jinkerson, through Attorney Henderson, has commenced an action for divorce against his wife, Margaret Jinkerson. He alleges in his complaint that his wife deserted him two years ago and they have been separated ever since. The couple was married in 1885 in the city of Blenhen, Canada. There are no children as a result of the union. The community property consists of 40 acres and two lots in Wolverine county, Michigan, worth $700, a house and lot in ElDorado county in this State, valued at $1200. Plaintiff is a resident of San Mateo.

While hunting in the hills of San Bruno Tuesday afternoon, Edward C. Hammond discovered the body of a woman lying in the bushes, a bottle partly filled with carbolic acid and a glass beside her. Hammond notified Coroner Plymire of his discovery and he took charge of the body and identified it as that of Mrs. Carl Fredericks who disappeared from San Francisco about ten days ago. At the time of Mrs. Fredericks disappearance it was believed that she was slightly out of her head and had wandered into the hills and gotten lost. A search was made for her, but no trace had been found until Tuesday. Mrs. Fredericks lived with her husband and two children at 37 Juniper street, San Francisco.

HUNTERS WERE PLENTIFUL

And as a Consequence County Clerk Nash Disposed of 200 License Tags.

For a delicious smoke buy the Golden Eagle and Oakwood cigars, manufactured by George Wiechring, proprietor of the Red Front Cigar Store. They are the best ten cent smoke in town.

The marshes were bombarded Tuesday morning and before sunrise a fusillade began and was kept up for some time. Besides the local nimrods there were a large number of hunters from San Francisco. Nearly every one secured the limit, 25. Among those of Redwood City who secured the bag limit were H. B. Gardiner, Deputy County Clerk Al Lowe, John Genochio, Henry Beegeer, Guy P. Hull, Hall C. There was a great demand for hunters licenses at the clerk's office during the week owing to the opening of the quail and rail season. Over 200 were issued. A Japanese at the salt works was given one at a cost of $25. It is up to the game warden to keep an eye on this wily Jap for he no doubt will pass it to his countrymen when they want to hunt.

The afternoon will be devoted to the fair and, beginning at nine o'clock, the young people will trip the light fantastic. Ladies will be admitted to the dance free but the sterner sex will be charged fifty cents for their fun. The prospects are however, that it will be cheap at that price.

The reception at the Congregational church was replete with good things last Tuesday night. The new members and Mr. and Mrs. Robert Brown in whose honor it was given had a chance to meet all of the other old and new members of the church. A very interesting program was presented, one of the best numbers of which was an impromptu talk about his travels by Mr. Brown. The way he interspersed jokes and droleries into his description of the countries he had visited kept his audiors in laughter for nearly an hour. At the conclusion of the program refreshments were served by the ladies of the Church.

The party who removed the white silk parasol from the convent facy booth in the Catholic church fair, is requested to return it without further notice.

A good show at popular prices is what the people want, and from reports received we feel confident that Beaty Bros.' Specialty and Comedy Show, which will give a performance at the Alhambra next Wednesday and Thursday evenings, will please in both particulars.

Fred A. According to the story told by Ash whose office is at 832 Market st., Bull wthheild $900 which he had collected as rentals for property and payments on contracts. Ash swore to a warrant for Bull's arrest last Saturday, but the detectives were unable to locate him until Wednesday.

Bull claims that he wrote to Ash last Saturday that he was about to go to Redwood City and that he had the $900 which he intended to pay Ash. Bull failed to explain why he did not have the money on his person when apprehended or why he did not deliver it to his employer before leaving for Redwood. Bull lives in Burlingame.

Supervisors Visit Bridge

The board of supervisors of this county at the invitation of the Board of supervisors of Alameda Co. visited the Dumbarton bridge on Tuesday with a view of making an application to the Government and Southern Pacific Railroad Company to construct a wagon road on the bridge. The proposition seems hardly feasible although if such a thing could be done it would be a great benefit to both counties. Both boards are enthusiastic about the proposition and will do all in their power to accomplish the work. The cost of building the road would be borne by both counties.

Articles of Incorporation

The following articles of incorporation were filed in the county clerk's office during the week:—

The Peninsula Laundry Company incorporates with a capital stock of $75,000 divided into 7500 shares at a par value of $10 each. The principal place of busneiss is Redwood City and the company is to do a general laundry business. The actual amount of stock subscribed is $50 by the following directors who subscribe one share each. F. T. Miller, H. J. Miller, T. C. Rice, W. C. Roche and F. H. Thorpe. The company has taken over the Redwood City laundry, of which F. T. Miller has been proprietor. This laundry has a finely equipped plant and does a large business.

The Harris Company incorporates with a capital stock of $60,000 divided into 1000 shares at a par value of $60 each. The purpose of the incorporation is to do a general wholesale and retail business. The actual amount of stock subscribed is $60,000 subscribed by the following stock holders:—George W. Harris, of San Francisco, 501 shares $30,060; Nieves R. Harris, San Francisco, 496 shares$29,760; Charles W. Harris, of Oakland, 1 share $60; Mary L. Harris, San Francisco, 1 share $60; Geo. K. Harris, Oakland, 1 share $60.

Telephone Change

An important change in the policy for thirty years oof the Bell Telephon Commpany has been made known. When questioned to-day regarding the report that the Western Electric Company, the concern that manufactures the apparatus used by the Bell Companies, would hereafter sell telephones and supplies to all buyers, President Theodore N. Vail of the American Telephone and Telegraph Company, confirmed the report. He explained that the idea had been under consideration for a long time but that heretofore one difficulty had been that the Western Electric Company needed more plant; its full energy being required to supply the demands of the Bell Companies alone .This obstacle to doing a general business has been overcome by the recent completion of very large additions to the Chicago factoriy of the Western Electric Company, and hence it is now in a position to take care of outside orders.

In reply to a question as to the probable effect of this action on the revenue of the American Telephone and Telegraph Co., Mr. Vail said that no considerable direct increase was anticipated but that a great indirect advantage was looked for from improved relations between the public and all of the associated Bell Companies, because there had been an entirely erroneous idea more or less prevalent that the charges of these companies for their services were based on a monopoly of telephone instruments, while the fact is that the instrument is but a small part of the plant required in giving telephone service.

It is felt that this action may cause it to be more clearly understood by the Public that the Bell Companies only claim for patronage is based on their ability to furnish the best service at reasonable prices and not on any instrument monopoly.

Mr. Vail explained that at the present time in--efficient telephone instruments are in use on local and private lines and that the Bell Companies desire to see those replaced by standard instruments in order that it may make traffic connections with the greatest possible number of properly equipped lines, assuring proper service and transmission. For example:—There are thousands of so called "Farmer Lines" which will furnish valuable feeders for the toll lines of the large system when properly equipped and maintained. This situation can now be provided for through the sale outright of Bell instruments and apparatus.

In answer to the question as to whether it was intended that the Westerin Electric Company should become an aggressive competitor of the independent manufacturers, who up to this time have had a monopoly of the selling trade, the only reply was that the Bell interests are fully prepared, either from the manufacturing or operating side of the business, to meet all the needs of the public, and that they wish to demonstrate that they claim or ask no advantages other than their ability to meet those needs under square competitive conditions of quality and pricees:—There would be no trade war, but any manufacturers who have been getting high prices for inferior goods under the old monopoly of the selling trade would naturally suffer a loss of busniess.

James Mosconi has purchased the Purissima House and as soon as the building has been overhauled and renovated will be formally opened to the public. The Purissima House is one of the best road houses on the coast and Mr. Mosconi is well known and is certain of success. During the overhauling the house is open to the public.—Half Moon Bay Review.

Good Work Done and Some of the Plays Called Forth Great Applause

On the afternoon of October 12, 1907 the rival football teams of the San Mateo and Redwood City high schools had their first contest on the football grounds in this city.

It was a lively game from start to finish. Each side was determined, and each side entered the game with but one intention, and that was to win. The spectators showed their enthusiasm by many interesting yells, comments and gestures--especially at such times as any one of the young heroes made an extra skillful play.

The saddest and yet the happiest feature of the game was that one side lost and the other won. But this is a necessary feature of all games that do not end in the deplorable "tie".

The teams were pretty evenly matched inasmuch as the game was so close .San Mateo had much the heaviest team, but Redwood was certainly a match for them, in spite of this fact. Neither side had any men of much experience, but both teams showed some skill at times, and a few of the boys did some work that is worthy of praise. Among the most skillful players were Stratton, Barneson, Beeger, Nobs and Havard. Barneson made at least one excellent tackle and did some good kicking. Beeger surprised everybody by his quickness, and Nobs was not a bit slow. Once the ball was kicked over the San Mateo goal, but a Sequoia man was "off side" and it counted for nothing. Without a doubt Havard earned the honors of the day when he blocked the last San Mateo kick, which luckily sent the ball on a mission of victroy for Sequoia, making the score stand five to nothing.

This is the second game that the Redwood boys have played this year, and the fourth game in the history of the school. If a good beginning indicates a good ending and if early victories have any influence on later events then Redwood has no reeason to feel discourgaed.

With the exception of one boy, who was somewhat stunned, no serious accident occurred. The game ended with the battle cry of victory for Sequoia, and with all around good feeling every body went home.—Earle Green '08.

THE MORNING WAKING.

Getting Up Exercises That Will Put the Brain In Order.

The difficulty most people experience in getting up in the morning can be easily overcome by a simple operation, according to a medical authority. After the night's long rest the brain is laden with somewhat impure blood, and the lymph vessels which remove waste matter are overfull and sluggish. This is why we all crave another ten minutes in bed and why most people are so morose at breakfast. Very slowly the brain gets rid of the matters which interfere with its vigorous action, but the process can be expedited.

If the finger tips are placed against the neck just under the ear and moved swiftly down to the front of the shoulder along the course of the jugular vein, the used up blood is drawn away and room left for a fresh supply. This should be done twice at each side of the neck. Then the hands should be placed on the back of the neck just under the skull and moved downward as far as possible. This clears out the lymph vessels and effectually prevents swollen glands, from which so many people suffer.

After two brisk rubs of the lymph vessels return to the jugular veins and then back to the glands, half a dozen or eight times, until the operation will be found far better than a cup of coffee, and whenever the brain is dull through congestion this massage will be equally effective.—Pearson's.

Miss, Mrs. and Mistress.

"Miss" is an abbreviation of "mistress," which, as an English law dictionary explains, is the proper style of the wife of an esquire or a gentleman. By Dr. Johnson's time it had become "the term of honor to a young girl." In the earliest part of the eighteenth century, however, it was used respectfully of girls below the age of ten alone. After that age "miss" was rude, implying giddiness of behavior. In Smollett's writings an unmarried woman of mature years and her maid are both "Mrs." It is certain that "miss" has grown older, so to speak, while "master" has become confined to boys.

Mrs. West suffered from backache and a tired, languid feeling for some time. Doan's Kidney Pills seemed to be what her system required and gave her new energy and ambition. My kidneys were strengthened by their use, my back relieved of pain and I feel better in every way. I have expressed my opinion of Doan's Kidney Pills to many of my friends, and procured them at P.
